

Submitter:

Emily Garbina

On Behalf Of:

Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1570

I am in support of restricting ice agents from entering a hospital and interfering with patient care. Anyone who is in a medical facility should feel safe that includes staff and patients collectively. Ice agents have shown a lack of training and following the law in how they conduct there business and I believe that hospital staff should not be put at risk of being pushed, pepper sprayed, or shot, while at work. I ask that hospitals be keep a safe place for staff and the Ill that are simply trying to receive medical help. Thank you
