

Submitter:	Dominique Arthur
On Behalf Of:	Painted horse recovery
Committee:	Senate Committee On Judiciary
Measure, Appointment or Topic:	SB1583

My name is Dominique E. Arthur and I currently reside in Portland Oregon where the best recovery starts from any mind changing substances. I am from Lapwai Idaho and came to Oregon to seek recovery from being stuck in the crossfires and my own addiction of meth/alcohol/weed I just could not get sober in my environment in Idaho not only have I gotten my children taken and lost everything else in between I came to Oregon for the 2nd time because I know the recovery is strong here and of course Oregon welcomed me back from my relapse everytime I needed to come heal and recover. I came to NARA residential and NARA outpatient and was successful both times and completed the program both times I have gotten a mentor through painted horse recovery and now I am a prime plus mentor for them. Being able to help and give back has always been my passion what they poured into me I now get to for others. Recovery is so important for the ones still struggling having all the programs we have today to collaborate with and help eachother is where it's at. I'm speaking of my own truth and my own success is from these places and people who help us along the way to keep us going on the right path. I pray for a better outcome ??
