Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

As an Oregon citizen and as a professional PhD ecologist I support increasing any taxes to help support wildlife. I think it would be wonderful to increase and enhance our wildlife. For my wife and I probably the greatest deficiency we find in Oregon (after moving from Montana) is the relative absence of wildlife, which we used to find so exhilarating in Montana. But we can do it in Oregon!
