I simply want to voice my support of anything that gets guns off the streets and out of the hands of the deluded or dangerous. There is no need for large magazines of ammunition at all, in any circumstance. They are not a toy. Every gun owner should have a background check completed; too many perpetrators know how to sneak by the regulations that protect us all. As a voter in Oregon, I remember that we passed Measure 114 back in 2022. What is taking so long to implement the choice of your constituents? We resent the violence being enacted on our citizenry by ICE as well as criminals, or, wait? ICE are behaving like criminals and should have their guns taken away. Guns are weapons. It should require training and vigilance to use them, not just a desire to make a lot of noise.

Thank you for considering my comments.
