Madelyn Treanor

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

I, Madelyn Makenzie Treanor, strongly oppose HB 4145. We are tired of the state, along with multi -billion dollar corporations, disguised as gun control advocacy groups, continue to stomp all over our Constitutional rights. This Bill is nothing but a cash grab for these institutions, including the corrupt state government that we find ourselves under. These bills are NEVER about safety. They lie through their teeth with boisterous statistics that they themselves manipulate or completely make up. They pull at the heart strings and campaign on fear, and what it truly all comes down to are feelings VS the constitution. This type of legislation would NEVER fly for any of our other constitutional rights. They only target us, the law abiding, rule following, honest, hard working Oregonians, in an attempt to make it so cumbersome and expensive that no one will want to exercise their rights. Well, that's where they are wrong. We will fight this tooth and nail, because our cause is righteous and honest and free. This is the United States of America. It's time we bury this bill and measure 114 for good.

Thank you for this opportunity, and I hope that you will strike this totalitarian monstrosity of a bill.
