HB4145

I was so proud of Oregon when measure 114 passed. The delay to implementation has been frustrating to me and dangerous for all of us. Measure 114's ban on large magazines and a requirement to get a permit are simple, common sense, and not a threat to the second amendment. I urge the legislature to pass 4145 in this session so the will of the people will be followed promptly after the final court ruling.
