HB4145

Voters in the state of Oregon voted for Ballot Measure 114 in 2022 and passed it. It felt like an important moment for Oregon. Unfortunately it has been held up in court but as it now sits before the Oregon Supreme Court we are close to having it become law. But there are things that need to be done to make it work as intended. HB 4145 is what is needed to give the voters of Oregon what they rightly celebrated the passage of back in 2022.

The United States is not safer with more guns for everyone. The statistics prove that. Please honor the voters of our great State and pass house bill 4145 so the law we voters passed can finally be enacted.
