House Committee On Revenue

Measure, Appointment or Topic:

HB4125

Hello! Young Oregonian here!

The Oregon kicker belongs to the people of Oregon, not the government who clearly can't seem to get their priorities straight. Maybe you guys should again, pick up a calculator, focus on core missions, and get budgets in order. Also, stop choosing people who clearly cannot get the job done and continue to throw this state into more debt. Our taxes need to be apportioned to the correct budgets.

Us Oregonians are struggling enough...cost of living keeps continuously growing through the roof, despite the current state governments "efforts" to get cost under control. The current state government has had more money than they've ever gotten from Oregonians, yet, there is continuous budgets "shortfalls". Quit blaming other administrations for cost of living, and look at your own administration. Us Oregonians are pretty tired of the finger pointing yet there is no accountability. This word "accountability" sounds familiar, correct? We heard this word a lot during the transportation tax increase that was passed despite 95% of Oregonians being in opposition on, only state republicans had working Oregonians backs.

This current state government other than the state republicans (in my opinion, and I'm 22 years old) have no interest in making Oregon an affordable place for people to raise families, own businesses, own homes, and so much more. Leave our pockets alone, and give us back the money we deserve and work hard for. If this gets passed, I'm pretty sure the people of our state can gather another 250,000 signatures.

I might have no idea what I'm talking about when it comes to politics, but I'm pretty sure my mom's 2nd grade children she teaches could run the state better than the current state government. Apparently, logic is illegal in the state capital when it comes to managing money.

Leave the Oregon kicker alone. Give us our money that we deserve. It's the least this current state government owes us since this government does not care about the hardworking people that continues to make this states gears keep spinning.
