Measure, Appointment or Topic: HB4145

I urge you to be in support of House Bill 4145, it's pivotal in reducing gun violence and creating a safer atmosphere for students like me to learn. Students like me are fed up with the overcasting fear of a mass shooting. Guns are the 2nd-leading cause of death among children and teens in Oregon, and the leading cause nationwide. House Bill 4145 contains life saving provisions as seen in 2022 when we enacted the permit to carry act. We are capable of seeing a future free of gun violence, so by advancing this bill let's take it one step closer. Thank you!
