HB4138

I oppose HB 4138 because it is another political game that the majority in the Capitol are playing.

Number one: Your local or state policy does NOT trump Federal Law. (In regards to face masks and uniform standards of other agencies)

Number two: Politicians in this state wanted to defund the police not too long ago.

Can we say that politicians on one side are against all law enforcement that work in the state of Oregon? It's pretty clear that you no longer represent the voice of the people.
