HB4125

I'm a blue collar worker who moved out of Portland to Medford because I was being priced out. I had to cancel my plans of starting a small business because Oregon government is anti business by over regulating and over taxing businesses and residents.

Oregon politicians are supposed to be listening to the will of the people and not their own private interests.

I demand taxation with representation!

Tobias Read as the Treasurer increased the PERS debt significantly. Under his leadership and Elizabeth Steiner's leadership they were ignoring the recommendations of the consultants that they were paying millions of dollars to. We as the taxpayers have already contributed to funding PERS with our taxes. IT is NOT our job to fund the government failures!
