Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

I oppose all unconstitutional infringements of rights.

I oppose this measure based on the privileges granted to some individuals. This is a perfect example of a two tier legal system. Law enforcement doesn't need to follow the same rules and regulations while off duty? Will there be exemptions for law enforcement to not have to acquire driving licenses. Maybe give them exemptions on contractor licenses, real estate licenses, medical licenses? Law enforcement has to take first aid and cpr courses. Should they be given medical practice licenses? What other laws should be enforced on the public but not equally enforced on government employees? Will all government employees be granted immunity from all laws moving forward?
