

Submitter: Juliette Dunn

On Behalf Of:

Committee: Senate Committee On Natural Resources and  
Wildfire

Measure, Appointment or Topic: SB1541

I am an Oregon citizen whose family has been impacted by the effects of climate change caused by corporate polluters. During the wildfires that swept the NW, my grandma's lungs were severely damaged, unable to even step outside without becoming unable to breathe. Many members of my community have been impacted even worse. Corporate polluters have caused this mess, so they should pay to clean it up. It is common sense that the main cause of health and ecological issues in our community should have to pay to atone, and there is plenty of precedent for this. Ensure our communities have the funds to build resilience in the coming decades.
