

Submitter:

David Milet

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

Measure 114 is facially unconstitutional based on numerous Supreme Court decisions and should be rescinded in all parts.

You are taking away my Constitutional Rights and violating my personal freedoms concerning the safety of my family.

You released 100's of violent offenders from incarceration and have failed to punish them.

These early release actions have created a hostile culture. There is an influx of violent criminals to Oregon.

The crime statistics validate your inept decision making.

Besides that,.....the mail in ballot system of Oregon is fraudulent. The original vote was rigged.

If you want to save lives make DUI and distracted driving the highest penalties in the USA!!!

Teens die everyday while texting and driving. Make drug use illegal again. Portland is a Shithole and people leaving.

I could go on, but won't.
