Measure, Appointment or
Topic:

HB4153

Small farmers and local fruit and produce stands are an invaluable resource for farmers and the local community. This allows people who might not otherwise purchase locally grown fruit and produce access to healthy, affordable food. Our small farmers are an integral part of rural towns and communities. There should be NO restrictions placed on the small grower to supply this needed resource in rural Oregon. Growing food on smaller farms and plots of land is a long standing tradition that needs to be protected! Do not force consumers to purchase from large corporations or large farms that have no interest in organic farming and growing in sustainable ways. Please oppose this proposed restriction on small farmers and farm stands!
