House Committee On Judiciary

Measure, Appointment or Topic:

HB4088

I oppose HB 4088 because it conflates issues by bundling broadly supported reproductive health care for females with experimental and potentially harmful gender-affirming treatments, diluting sex-based protections by prioritizing gender identity over biological reality. It also presented risks to minors and vulnerable groups by shielding irreversible interventions that have weak long-term evidence, while including non-cooperation clauses could block probes into regret or harm and favor ideology over child safeguarding.
