HB4145

I would like to say I vehemently oppose HB 4145. House Bill 4145 simply put, adds too many unnecessary restrictions for law abiding citizens. There is already enough in place with background checks, policy enforcement, and existing laws, mental health etc. without putting our constitutional rights and the second amendment in jeopardy like they have. Criminals seem to have more rights than people who follow the law. Too much government. Enough is Enough. Thank you for your time in reading this.
