Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

I ask that you support this bill. Please consider our children and the safety of everyone who lives in Oregon. Connecticut statistics show clearly that permits make a difference. It does NOT interfere with a person's 2nd Amendment rights but it does add to the purchase process. Extra time for the process seems a small inconvenience for the safety of so many. I thank you for your service to the State of Oregon and I ask you to support this bill. I do understand that \$150 is a large fee for many people so would support an adjustment - a sliding scale fee?
