HB4145

35 years ago I was convicted of a felony. And 4 years ago I was given my gun rights back. I have now been able to teach my two boys gun safety. And spend time with them Hunting deer and Elk. I have also been able to purchase 3 guns in the last 3 years. The last gun I purchased was a nightmare. I had to make 4 trips to Salem to visit the oregon state police. Every time I went in they wanted different paperwork showing that I had gotten my gun right back. On the 4th trip I was able to provide what they needed to clear my background check. I feel that this bill would further compromise my rights to own a gun. Therefore I strongly Oppose this gun bill. Thank you for your time.
