HB4125

As a lifetime Oregon citizen and now senior citizen, I can say these changes will hit older people

living on fixed incomes the hardest. I know the ""Supermajority Spenders" in our Oregon Congress

are frustrated by this supposedly Constitutionally protected act. At the VERY LEAST any changes should

be voted on by the taxpayers but realistically should be either dropped or increased.

Even our Socialist

neighbor California has never screwed with their Prop 13 provisions. I strongly

suggest that you all figure out

another way to finance your a Minnesota type scam dreams perhaps through better management or maybe

a Minnesota type scam (sarc) but and LEAVE THE KICKER ALONE. Thank you for your attention to this matter.
