Thank you so much for reading my testimony. Please do not ban small scale farm stands. I just moved to a farming area and began growing vegetables. It was incredible! I loved growing food and discovered that I could grow so much more than I anticipated. It was amazing to share my bounty with friends and family. I am so excited to have a farm stand and can't wait to share my lovingly grown veggies with my neighbors and community. It's a wonderful way to build and support community as well as put a little extra money in already stretched thin farmers pockets. Please let this charming and supportive tradition continue ??
