Measure, Appointment or

HB4153

Topic:

Small farms have the highest burden of eligibility by acreage in production

Small farms are the only ones who have to prove farm income in order to qualify

A farm property of under 10 acres cannot qualify for a permit until minimally their third year of business while larger land owners can qualify right away.

My friends at family farms spell it out clearly. There are not enough micro and small farm exemptions clearly laid out.

Until it's included I do not support the bill.

Sincerely, thank you,

Kevin Jones, very small acreage farmer.
