Janet Hodder

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

I support House Bill 4134. The goal of this funding is to keep common species common and help improve conditions for species that are struggling. It has strong support from the entire recreational fishing, hunting, and conservation community. The investment will benefit all of Oregon's wildlife and habitats. I think it is especially important for Coos Bay and the Oregon coast as many of our visitors come here for the natural beauty and to watch the wildlife of the area.
