HB4007

Dear House Committee on Transportation,

I am writing in support of establishing clear guidelines and rules for use of micromobility vehicles within communities. Oregon needs to continue pushing alternative transportation options and infrastructure in order to reduce reliance on cars and work to lower greenhouse gas emissions. This will enable more people to feel that they can safely make the decision to use their car less. Parents will have more confidence when choosing an appropriate micro-vehicle for their kids and allowing them the freedom to use it.

Thank you for your consideration of this testimony.

Sincerely,

Kirsten Davis
