HB4145

This bill does more harm than good by making a constitutional right harder and more expensive to obtain.

While doing nothing to keep guns out of the hands of criminals it instead creates two classes of citizens with it carve outs for law enforcement.

This bill punishes law abiding citizens by treating them like suspects. We already have a Federal background check in place there for a permit to purchase is a very expensive redundancy, not only costing the purchaser but also wasting valuable resources and taxpayer money. It is an expensive permission slip that goes against the very spirit in which our constitution was written.
