House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

Common sense gun laws, like the ones proposed in Measure 114, keep everyone safer. For example, banning large capacity magazines shouldn't be a big change for responsible gun owners- they can still enjoy the activities that involve using their guns. But research shows that it would reduce the number of people who are hurt and killed in mass shooting events. The measures proposed try to balance the needs of everyone.

Implement Measure 114 now!
