Measure, Appointment or Topic:

HB4145

I strongly oppose this bill. Measure 114 hasn't even played out yet, and you are still pushing this unconstitutional measure with no grounds. Will not prevent gun related deaths! We have a mental health crisis, not a gun crisis. All this will do is put law abiding citizens in more danger than necessary, and put more burden on being able to protect yourself and your family. When have criminals ever obeyed laws? Where/how is this going to be funded? We have other important issues to address rather than putting more burden on law abiding citizens.
