Measure, Appointment or Topic: HB4125

Members,

It is apparent that you really don't get it. Oregonians are sick and tired of your hunt/ambush for the contents of our wallets. Pay attention! Do what normal households do .... cut back spending and manage the money earned. You did not EARN the Kicker funds. In fact, you are driving away sources of revenue every day. Citizens are leaving. Citizens WANT to leave. Prominent corporations are fast exiting like Dutch Bros and more. Others are planning their strategy to evacuate. Oregon has one of the lowest business friendly climates in the entire country!!! Do you not see yourself?

You do not manage the state well. It's clear. Maybe for starters, do not hire applicants who failed in other states for management jobs here.

Take the tidal wave of the ODOT petition drive as an indicator. No one, except maybe a recipient of your "freebies" thinks this Bill is anything more than a lack of management skills.

No. to 4125.
