

Submitter: Scott Batchelar
On Behalf Of:
Committee: House Committee On Transportation
Measure, Appointment or Topic: HB4007

Greetings all,

My name is Scott Batchelar and I've been an Oregon Resident for all of my life (63 years) I've lived in the Portland Metropolitan all of that time growing up in Hillsboro then moving to Portland in my 20's.

Both Portland and Oregon have done a good job but there is definitely room for improvement having a concise, statewide set of rules and common sense directives would go a long way toward making Oregon an elite bicycling mecca rather than some areas like the Wild West and others good,

I have been riding a Powered Micromobility Device now since 2012 and it's truly become my main form of transportation currently I am riding a Class 3 (28mph) Benno Remi Demi XL and this is my 4th EBike since 2012 and it's truly enriched my life.

Please take this responsibility seriously and do the best you can as this could either help many people or could hinder them.

Thank you, Scott T Batchelar
