RE: Testimony in Support of SB 1570-1

To the Senate Health Care Committee:

I don't think you need me to tell you that ICE officers have repeatedly abused their positions as federal authorities to target and abduct immigrants (or those they simply judge to be immigrants then find ways to explain themselves later) or in more recent events, kill innocent, entirely legal Americans.

Under the current administration, it's no wonder that there are many people who will forgo seeking medical attention out of fear for their lives and those of their loved ones.

As elected officials, it falls on you to ensure that hospitals can at least provide a safe space for people to receive the care they need.

Please do right by your constituents and help get this bill passed for the sake of us all.

Thank you for the considering this testimony and I look forward to your support.

Sincerely,  
Thom
