Senate Committee On Judiciary

Measure, Appointment or Topic:

SB1594

Why waste money and time in forming a policy that is already in place. These people are considered illegal which means committing a crime against the state and citizens. People who come here correct spend their own money, study our rules and laws, take a oath to To the United States and assimilate to our laws.

The policy is already in place with the Chief of Police. The police are paid to do a job, which is to apply the laws, which includes arrest people committing crimes when they stepped across the border. Then we pay for ICE AND CBP to come and take them to Federal holding facilities for return back to country they left! Which in return would save thousands of dollars! The money given and spent could be used to Give better services to our senior citizens, disabled, and veterans who have been here longer than these illegals, who have paid these tax dollars you want to waste funding Policies, Paper, training, and managers to make sure policies are put in place. It is time we put citizens first, send illegals home to do it the correct way within the laws.
