

Submitter:

Aubrey Raney-Avers

On Behalf Of:

Committee:

House Committee On Education

Measure, Appointment or Topic:

HB4079

My name is Aubrey Raney-Avers and I am asking that you pass HB 4079 to ensure the safety of students and staff. With the currently very real chance that federal agents may show up to a school or college campus, it is imperative that there is a plan in place to notify those that are impacted. I have a child in college in Oregon right now and their school has denied repeated requests by students to be notified if ICE is on campus. Because of this, they feel unsafe as ICE is not only targeting those here undocumented. This bill also requires that parents be notified as well as impacted community members and whether school operations are impacted. These are all important things, and I ask that you support this measure. Thank you.
