

Submitter:

Mary Beth Guerena

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4088

I support this bill. Women should have the right to choose their health care and reproductive rights. Women who are faced with the extremely difficult decision to seek an abortion will continue to seek them. Unfortunately, at a great risk to their health and well being without medical supervision and care. Please protect the health of women and transgender people. Thank you.
