HB4145

I urge you to support HB 4145. Our state/country needs to implement common sense gun laws. 1) Permits: Buying a firearm should not be a spur of the moment decision. 2) Background checks: We need to keep weapons out of the hands of people who are proven risks and/or mentally unstable. 3) Large-capacity magazines: There is absolutely no reason for anyone to own guns that can kill so easily and quickly. Not for hunting. Not for self-protection. Not in the hands of civilians.

Please make Oregon safer by passing HB 4145. The voters have already spoken.
