Mishael Wylie

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4125

Keep hands off the kicker. I know several democrats who needs to go back and Read the Oregon Constitution. These kickers funds was approved via the majority of voters, so it was written into the Oregon Constitution.

Individuals everyday have to decide what is within a budget every month. As a person who recently had a accident and lost all income in the blink of the eye had to readjust my priorities I didnt have to pay someone to work out a formula in order to increase my funds. I had to learn what was important and what wasnt. Citizens rely on that extra every year too help pay for emergency throughout the year. No one say oh we have to take more from over taxed Oregonians. So hands off the kicker it does not belong to Governor Democrats or Republicans. Its time this legislature understands you work for the constituents. Must work within the means budget.
