

Submitter: Scott Carpenter

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB4138

Unidentified, masked people with tactical gear and guns terrorizing our communities. We have no idea which of these people are law enforcement, and which are not. Many of them state that they don't care about my rights, and then proceed to violate, and I have no recourse to them accountable, as it is exceedingly difficult to identify them. At the very least, they need to show their faces and have names and badge numbers readily visible at all times.
