HB4125

I oppose this HB4125 to change the kicker calculation which ultimately takes more funds from hard working Oregon taxpayers. There must be an audit to determine why the investment returns have been such a failure. We ALREADY pay for PERS with our taxes. We should not pay AGAIN by taking away our Kicker funds. We should not pay again due to our state government's ineptness. Be accountable for once & audit your investments. NO on HB4125.
