

To Whom It May Concern:

I realize and accept we live in a pluralistic society where we may differ in principle. I accept there is real pain and suffering for those who face gender dysphoria and unwanted and unexpected pregnancies. The pain can be intolerable. Yet, for moral reasons, I urge you to vote NO on HB 4088.

I am particularly concerned that providing definitive invasive gender transitioning procedures to pediatric patients may not have research data supporting it, especially regarding negative outcomes long term.

With much thanks and appreciation for your contributions to your constituents, whether in our or out of your district.

Sincerely and respectfully,
