House Committee On Judiciary

Measure, Appointment or Topic:

HB4138

It is a truly grim state of affairs wherein a bill such as this is a requirement to counteract the lawlessness of those who nominally are meant to uphold said laws. Nevertheless, it is still a necessity which must be enacted with utmost haste to hold to account, those who have come in to our communities and ordain themselves as unaccountable for their disregard for law and the subversion of citizens' fundamental rights. Members of all law enforcement, regardless of level, should be knowable, and thus able to be held to answer for their transgressions.
