

Submitter:

Alexander Hada

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4088

It is the right of all to have autonomy over their bodies. And it is the right of all to be free from government interference in the choices you make with your body. Whether that is reproductive healthcare or gender affirming care that is a right that should be protected and nurtured. The federal government has declared their intent to be hostile to marginalized groups such as our trans community in Oregon and to women across this nation. We as Oregonians have a duty to stand by our people and the most vulnerable amongst us who stand to be harmed the most by this administration. That is why I am in full support of this measure that looks to protect our people and their rights that they are entitled to as Oregonians. I ask the legislative body to support this policy stance for Oregonians. To stand with the people and against the over reach of a hostile and tyrannical federal government that cares not for our people of the state of Oregon. Thank you.
