On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB4125

Our public schools are the backbone of communities throughout the state building citizens, workers and voters of the future and yet we don't ever deliver the necessary funding for school districts to do this important work. Yet we do collect the necessary revenue but instead of funding core services schools and roads we give revenue back because predicting a chaotic economy is hard.

Fix the kicker law so that when budget short falls exist funds don't go back. On good years when the budget is flush, give back the unnecessary revenue but when we have a year like 2025 let's keep the funds and put them to good use.

It's not to say the schools him as they should or that road authorities don't spend funds on unnecessary things so reform of some of those institutions is a necessary part of the kicker reform too.

You got to do this more than ever. If you don't we only kick the can down the road
