SB1563

We have watched the democrats slowly strip the citizens of this state restrict and or ban our individual rights with no recourse to get our individual rights and property back. The liberal democrats have refused to listen to the people and done what they wanted regardless of what he experts and people say. We have had no ability to currently protect ourselves, our property and our rights, this will give us the ability to protect ourselves from those that believe they have the right to lord over us!
