Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB1583

I believe it would be a it would be detrimental to the recovering community being someone that works in a treatment facility. I see people succeeding every day in their recovery and changing their lives due to the facilities. It would be a big mistake taking the funding away when we definitely need it to help people that are wanting to get sober and clean and feel better about themselves or be there for their family and change their way of life in the best way possible. I oppose this bill.
