Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

Tourism is one of the main economic driver in the state and this bill will negatively impact the industry that provides livelihood to hardworking families working as housekeepers, cooks, servers, front desk teams, managers, drivers, tradesman and lot more. This is a very volatile industry and if it is not affordable to visitors who have lots of other choices they will go elsewhere as they see this as rate increase and operators cannot absorb it..
