HB4143

Seeing as the reason Federal Funds is being withheld, is due to the fact our Governor doesn't understand her position. Our President elect by the majority of voters. Signed executive orders, which our Governor does not agree with. However Federal Laws are just that for all States.

Our Governor has placed pet projects over the majority of the State. Has spent funds on Illegals, DEI, Green energy. Which is taking more money away from Oregon's Citizen which is already struggling..Facing a financial short fall, while placing the very things Trump's Executive Orders are trying to do away with and cut the fraud waste and abuse that Tina Kotek is placing on the citizens.

She has shown she understands and comprehends that executive orders are to be followed as several of her executive orders are going to end up costing citizens more in the long run.

Of course she wants to withhold funds from the Federal Government, as she needs this funds to cover misappropriation funds and bad management the inability to control spending and budget within the budget, costing Oregon Jobs, business, more people unable to pay mortgage and energy cost!
