House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

Criminals will most of the time obtain guns withOUT permits. Anyone with a little know how can make a gun.....there are enough criminals "out there" who make guns and then will sell them to anyone so laws do NOT protect us from gun misuse other than the sadly occasional mistake made by an honest gun owner. Training can mostly stop those mistakes. Cars kill many people! We cannot legislate against every danger in life.

Please make it easier for qualified citizens to have a gun with proper training.
