

Submitter: Bob Morrow  
On Behalf Of: Concerned Citizen  
Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water  
Measure, Appointment or HB4153  
Topic:

The sponsors of HB 4153 will no doubt confidently show you where the McNuggets are on a Chicken.

What fecklessness.

HB 4153 is an absurd attack on an established system of rural communities relying on small rural homestead businesses to literally have food on the table all year.

United States Secretary of Health and Human Services Robert F. Kennedy Jr. encourages the consumption of Raw Milk. I have been drinking raw milk for decades and if HB 4153 passes my currently legal source will not be able to comply... The loving couple with kids will lose their milk income not make their mortgage and lose their homestead. Great plan Salem...

Take HB 4153 and toss it on your corporate compost heap.

Our organic small family businesses - are already struggling because of cancelled grants - complicated with the burden of increased costs due to increased tariffs.

Please keep small farmers - from disappearing.

Stop HB 4153 now!
