Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

Please consider a small increase in tourist occupancy tax as we have one of the lowest, and this to support wildlife protection for our area. We don't have a solid supporting base of financial support to continue the work that's needed. Tourism and rapid continual growth of our city has a big impact on wildlife and they need our protection for their own sake as well as supporting a healthy ecosystem for the future generations. I think we all can say that we value wildlife!
