I guess we are now a socialist state because you seem to think we the people of OR don't get a say on what you do. The kicker tax refund is ours not yours. If you can't balance a budget its not our fault. For you to trying to block us from saying anything is no more than socialist government. OREGON constition says we get that back when you screw up. I for one am past tired of being treated like I live under communism and a second class citizen
