Dear house committe I am speaking opposition of this bill. I am a veteran and a oregon citizen I have been a sexual assault victim at a time where I was not allowed to carry a firearm openly as it happened in a military base hospital. Iv also been assaulted twice now just for wearing a hat. The violent crime that has run rampid and has been encourage by those in charge. The trampling on the second amendment and financial gate keeping of ones right to be able to own in a timely manor of a tool to be there to defend ones self or family is all this is going to cause. The magazine law does nothing for protecting citizens lives. All this bill does is leave its citizens defenseless and vulnerable to those that would want to do them harm. As the only one you should ever trust too protect yourself is you and I've learned that lesson threw many times that where terrifying. This will not protect anyone but make them victims. Does those financially struggling not have the right to be able to protect there family loved ones or self. Not only that these blatantly violates the second amendment and have been dismissed already in the Supreme Court in other states. Thank you for your time and I hope you choose the citizens writes over propaganda
